

PEOPLE ENTHUSE OVER GOOD ROADS

Ball to Be Given May 29 Will
Help Draw the Three Cities
Closer Together.

COMMITTEES ARE NAMED

Expected That 1,000 Tickets Will Be
Sold, Rock Island Alone
Ordering 400.

"I never saw so much interest in any social function as is being taken in the good roads ball to be held at the Moline Commercial club rooms May 29," said E. W. Woodcock, secretary of the Rock Island County Highway Improvement association, today. "Everywhere enthusiasm in the cause of better roads is growing and the people are showing a disposition to go into this enterprise with the proper spirit. There is much rivalry between Rock Island and Moline boosters to see which shall sell the most tickets, these tickets carrying membership in the association. I should not be surprised if 1,000 tickets are disposed of. East Moline, too, is doing handsomely. "One of the features of this undertaking which should not be overlooked, while it has nothing directly to do with good roads, is the effect it will have in drawing the three cities nearer together in a social way, thus making it more easy to co-operate in other directions."

Rock Island is now in the lead in the sale of tickets. C. D. Rosenfeld is chairman of the committee for this city and he has chosen 29 assistants. Four hundred tickets have been ordered as a starter. There are two captains each in Moline and East Moline. In the former Miss Suzanne McShane leads a corps of ladies, while Jay U. Barnard is head of the young men's committee. In East Moline T. J. Gorman and Mrs. E. D. Aldrich are the captains.

Committees Named.

Names of members of the committees in charge of the function were given out today by Mr. Woodcock. Those for Rock Island are:

Executive—Devore N. Simonson, chairman; Mrs. Frank Bahnsen, Miss Alice Guyer, Hiram S. Cable, Robert Mitchell.

Floor—Dudley Marshall, chairman; Leo Larkin, George Davis, Ralph Lamont, Arthur Mosenfelder.

Decoration—Mrs. Sherman W.

Searle, chairman; Mrs. Walter Rosenfeld, Mrs. John K. Scott, Oscar Schmidt, C. E. Shields.
Program—G. A. Tegeler, chairman; Roy Collins, E. W. Schoede, George Perrin, Dr. J. R. Holloway.
Tickets—Charles D. Rosenfeld, chairman; Miss Elsa Simon, Miss Clara Hampton, Miss Kathryn Larkin, Mrs. Keith Collins, Mrs. J. R. Tuckis, Mrs. M. F. Henderson, Mrs. B. D. Connelly, Mrs. H. E. Curtis, Mrs. Inica Mitchell, Mrs. Mabel Preston, Miss Helen Davis, Mrs. C. E. Sharpe, H. W. Cozad, Elbert Don, Robert Bennett, H. T. Horst, John T. Marron, Fred Mitchell, Fred W. Burgh, Charles Montgomery.

Moline Committees.

The Moline committees are:
Executive—Richard S. Hosford, chairman, Charles P. Skinner, William Schultze, Miss Helen Huntton, Mrs. W. E. Whitsitt.

Floor—A. T. Foster, chairman, Dale McCutcheon, Harold McKee, Mrs. J. A. Newland, Mrs. W. C. Jiridiston.
Decoration—Mrs. F. E. Leavens, chairman, Mrs. A. C. Barber, Mrs. A. W. Mitchell, William Ball, Jack Cram.

Program—Mrs. Mary G. Ogden, chairman, Mrs. Otis Mansur, Mrs. Henry First, Martin Carlson, John Sundine.

Tickets—Miss Susanne McShane, chairman (women), Jay U. Barnard (men).

East Moline Committees.

The East Moline committees are:
Executive—Dr. E. C. Taylor, chairman, Mrs. Ed Aldrich, Mrs. A. E. Johnson, George Walker, E. E. Selbke.

Floor—Frank Clendenin, chairman, Floyd Thompson, R. G. Kopelman, Mrs. Ed Taylor, Mrs. S. A. Cartwright.

Decoration—Mrs. George Walker, chairman, Mrs. Frank Clendenin, Mrs. Ed Aldrich, W. I. Taze, S. A. Cartwright.

Program—Fred Rallsback, chairman, F. O. Lovins, Miss Gertrude Kopelman, Mrs. J. F. Ryan, Mrs. M. S. Martin.

Tickets—T. J. Gorman, chairman (men), Mrs. E. D. Aldrich, chairman, (women).

CHARGE BOYS WITH BEING DELINQUENT

Petitions to declare Walter Chaplinsky, 15-year-old, and Arthur Scheib, 12 years of age, delinquent, were filed in the county court yesterday. The lads are accused of stealing a number of bicycles in Moline and Rock Island. The cases will be heard Friday.

A petition to declare Hazel Hoover, daughter of Mrs. Anna Hoover, a dependent, was filed yesterday in the county court. The hearing is set for June 12.

JURY ACQUITS IN FIRST FISH CASE

Charles Phillips Found Not
Guilty of Clamming in Rock
River Without License.

C. J. Phillips, charged with illegal fishing, was found not guilty by a jury in county court yesterday afternoon. It was alleged that the defendant clammed in Rock river, which is a fish preserve, without the license of \$50 for each boat used, required of all non-residents.

The jury got the case about 3:30 and in less than an hour, returned a verdict of acquittal. Phillips denied he was a non-resident and claimed that he brought a tent with him and that he intended to make this his home for the summer.

Deputy Game Warden Elmer McDole, who made the arrest, claimed that for the past six or seven years, Phillips had been coming from his home in Muscatine to clam in Rock river. Witnesses from the Iowa town were put on the stand to prove that the defendant voted at Muscatine, but the definition of the term non-resident, is so vague in the Illinois laws that it is difficult to secure a conviction. The cases against Russell Lindsay and Leonard Long, who were arrested with Phillips, were dismissed following the verdict in the first trial. William McEniry appeared for the prosecution and H. M. McCaskin and B. A. Stewart for the defense.

SKILL OF PUPILS IS DEMONSTRATED

Department of Public School
Music Makes Good in Pro-
gram at Augustana.

With the practical demonstration of the benefit of training of grade pupils in music before them, the large audience at the college chapel last evening could appreciate what has been done by the new department of public school music that has been introduced into the conservatory of music at Augustana college. Pupils of all grades from the Milan schools sang, read the notes, placed them on the scale, gave the proper key for each selection, and in many other ways showed skill and training which has been acquired during the last year's training given them

by Miss Wistrand and her graduating class in that department.

With such practical work in teaching under the supervision of Miss Wistrand, Misses Olson and Pearson should be able to make good in the teaching of music in the public schools. That this department which has been added to the conservatory will attract many students from the nearby vicinity seems assured, as it is the only work of the kind offered in this vicinity.

In addition to selections by all the grades of the Milan pupils, Miss Olson read an instructive paper on "The Importance of Music in the Public Schools." Miss Pearson gave two organ numbers, Prelude and Fugue from Bach and the adagio movement from Gullistan. The entire normal class of public school music rendered the Twenty-third Psalm arranged from "Midsummer Dream," by Mendelssohn.

ADVOCATE SHORT LINE SOUTHWEST

Report on Rock Island Urges
New Road Crossing River
at Keokuk.

If the recommendation of E. W. McKenna, vice president of the C. M. & St. P., is ever acted upon the Rock Island road will send much less of its business through the three cities than it does now. Mr. McKenna, who has just completed a report on the Rock Island, recommends an air line to Kansas City via Peoria and Keokuk.

"This will have a potent effect in reducing transportation expenses," he says. "A reduction in the ratio of transportation expenses to gross earnings to some points between 35 and 37 per cent" is estimated in the report. "There is very little doubt," says Mr. McKenna, "that this improvement would place the entire property in a condition of such increased efficiency in its operation that sufficient earning power would be developed to restore the stock of the railway company to at least its par value."

The plan advocated, however, seems to have little prospect of being adopted in the present state of the road's finances and prospects for the raising of additional revenue.

MORNING STAR IS DUE IN MORNING

Returning From Cruise to
Southern Waters—Many
Excursions.

The Morning Star of the White Collar line will arrive early tomorrow morning from its cruise down the Mississippi and up the Ohio and Tennessee rivers.

Several steamboat excursions are booked for the next few days. The St. Paul this evening will give an excursion for the Moline Moose. The boat is chartered for tomorrow by the Royal Neighbors and tomorrow evening will carry the Tri-City Luther League on a moonlight excursion. It takes the Davenport high school boat any class to the Grotto Saturday, and for Saturday night has been secured by the Rock Island high school.

The steamer W. W. arrives from the south Sunday morning and takes an afternoon excursion to Muscatine in the afternoon.

The King's Daughters of the tri-cities have secured the G. W. Hill for tomorrow night. Sunday it makes a round trip to Muscatine.

The government snag boat David Tipton, was brought out from the Moline harbor yesterday, and will be put in the government service between St. Louis and St. Paul.

MANY GREEKS RETURNING TO THEIR NATIVE LAND

Many tri-city Greeks will within a few days leave for their native land, because they are unable to get work here. They are drawing their savings from the banks and making all preparations for their departure.

Some of them say they will return when prospects of work are brighter, while others are determined to remain in Greece, where most of them have families.

Although opportunities for remunerative work are not so great in Greece as in the United States, the Greeks declare they can live much cheaper in the old country, and with the money which they have saved here they can be gentlemen of leisure.

About 1,500 Greeks are in the vicinity of the tri-cities.

Hay's Hair Health

Restores natural and youthful color and beauty to grey or faded hair. Positively removes dandruff—promotes a thick, healthy growth—keeps hair soft and glossy. Is not a dye.

Your money back if not satisfactory. 50c and \$1.00 at all dealers. For trial size send 10c and dealer's name to Philo Hay Specialties Co., Newark, N. J., U. S. A.

The Glass Oven Door

Symbolizes the manufacturing and marketing policy of all Detroit JEWELS. No shoddy work to cover up, no exaggerated claims of merit to smother.

The Jewel Cabinet Gas Range

Is Scientifically Designed,
Honestly Constructed
and Sold on Merit.

Some Splendid JEWEL Features

NON-OX METAL—The metal used in its construction is the Special Non-Ox. This alone guarantees the life of the Jewel Range — FOUR TIMES LONGER THAN THAT OF ANY OTHER.

Burners—The one-piece star-shaped Burners prevent vent leakage of gas, thus insuring economy.

Oven Construction—The Jewel Oven is the most scientifically constructed. Perfect baking is the result.

Oven Door and Thermometer—The Glass Oven Door shows what is going on inside the oven, the Thermometer enables you to have the exact temperature you desire for any class of baking.

High Legs—These remove the necessity of STOOPING, are more sanitary by permitting easy sweeping under and around the Range.

Smooth Finish—The smooth finish and round corners of all the parts of the Jewel insure easy operation and cleaning.

These are a few Jewel Features. Come and learn of many more. We carry a Full Line.

Allen, Myers & Company

LAYING OUT ROAD WORK IN COUNTY

State Highway Commission Is
Soon Ready to Advertise
for Bids.

Six engineers sent out by the Illinois state highway commission yesterday afternoon surveyed the section of road near Sears which has been designated as one of those to receive first attention under the Tice law. Today the force went to Zuma, where a strip of the Rock River route is to be surveyed. From Zuma the party will go to Taylor Ridge to work on the road there, which will be built as a sample for the lower end of the country. The engineers are working with Wallace Treichler, county highway engineer. As soon as they have finished the authorities will be ready to issue specifications and advertise for bids on the work.

This county has \$14,000 now available for building hard roads and it is expected that nearly two miles can be constructed for this sum. The board of supervisors designated the strips of road referred to as the first to receive attention.

CONCERT BAND IS A SHOW FEATURE

Program Given Each Evening in
Down-Town Section Pre-
cedes Park Exhibition.

So far this week the Waters Concert band, in its concerts on the down-town streets, has devoted itself chiefly to selections from various favorite operas. Tonight, however, a special program of popular airs has been arranged, and will be rendered in Market square at 7 o'clock. Professor Fred Waters generally plays at least one program of popular airs each week.

This band is connected with the A. R. Miller's Greater Shows, now on view at Exposition park. The band would do credit to any chautauque platform. It consists of a well chosen aggregation of young American players, recruited from all over the United States by the conductor, Mr. Waters. It is seldom that a carnival company has such a splendid band. This band handles the "heaviest" of selections with the ease it does some light and fluffy popular air.

An immense crowd was present at the park last night and all of the attractions were liberally attended. The "Eruption of Mt. Kitamara," a most pleasing spectacular production of fireworks, including a ball of fire by pretty young women, was appreciated by the large crowd. The carnival will be in Rock Island all this week. The "Eruption" is a free attraction.

LOCAL STEWARDS AS HOSTS

Tri-City Branch Will Entertain Three
of Grand Officers.

The Rock Island county branch of the International Stewards' association are to entertain the grand officers of the organization in a stag dinner at Watch Tower inn tomorrow evening at 8:30, and 25 members from the tri-cities are expected to be present. The

SECOND STREET TO BE IMPROVED

Artery Into Factory District De-
cided on at Public Hear-
ing Held at City Hall.

At a public hearing held yesterday at the city hall, a pavement into the factory district was approved. Second street from Third to Thirteenth avenue to First, south on First street 730 feet, is the district. Brick is the material.

In view of the fact that an entrance into this section is deemed very necessary, the board of local improvements voted to spend \$7,500 on the project. The Rock Island Manufacturing company agreed to a donation of \$1,500, over and above assessments on the pavement and the Penn Oil company promised substantial assistance. Many of the property residents of that locality are poor and unable to pay for the improvement which is responsible for the liberal attitude of the factories in the section.

Extraordinary Values In Beautiful Millinery

The backward spring season had an exceedingly bad effect upon the millinery business. M. & K.'s millinery section was filled with an extraordinarily large and beautiful selection of spring millinery in anticipation of a rousing demand for such delightful hats in the early spring. But the buyer's plans were nipped by an unusually late and cold spring. The result is, of course, that we have a great number in stock now that must go in order to make room for others. And to emphasize the fact that they must be cleared out we've priced them this way:

LOT ONE—A group of very pretty hats for children that come in red and brown; values that sold up to \$1.98 69c

LOT TWO—A number of misses' lingerie hats in white. These hats are very beautiful; values that sold up to \$4.95 \$1.98

LOT THREE—Some small and medium size hats in blacks, burnt, navy and green; rare values. Hats that sold up to \$5.00 at \$1.98

LOT FOUR—Here is a group of exceptionally pretty hats in blacks with assorted trimmings; values that sold up to \$6.35 at \$2.98

\$1.98 for Panama Hats Worth \$3.25

For a few days only we will place on sale plain panama hats, medium size shapes, high crown. These are regular \$3.25 values at \$1.98
